Give me a call when you're free. I have a call at 2 PT but nothing scheduled otherwise.

We can talk about money for the Corps too.

Stuart –

Attached is one of the Navy's Hunters Point BPRG files I sent you last October. The Navy ran two residential scenarios. One scenario, the "EPA BPRGs (Res)" tab in the attached spreadsheet, uses default inputs. The other scenario, "Navy BPRGs (Res)," modifies several inputs including adult hand to mouth frequency and finger surface area. See rows 39 and 40 in the "summary" tab in the attached spreadsheet for a description of the changes (and cited references).

Are you in agreement with their changes?
